# The Three Levers Of Digital **READINESS**

Get comfortable with innovation.

- Simple, quick and cost-effective
- Cosmetically refine existing channels
- Future-state in mind allowing for incremental growth
- Sleek front-end that elevates the CX
- Modular stack with plug-n-play capabilities
- Get to market quicker with focused financial products
- Ultimate reduction in costs based on long-term efficiency
- Real-time data and insights

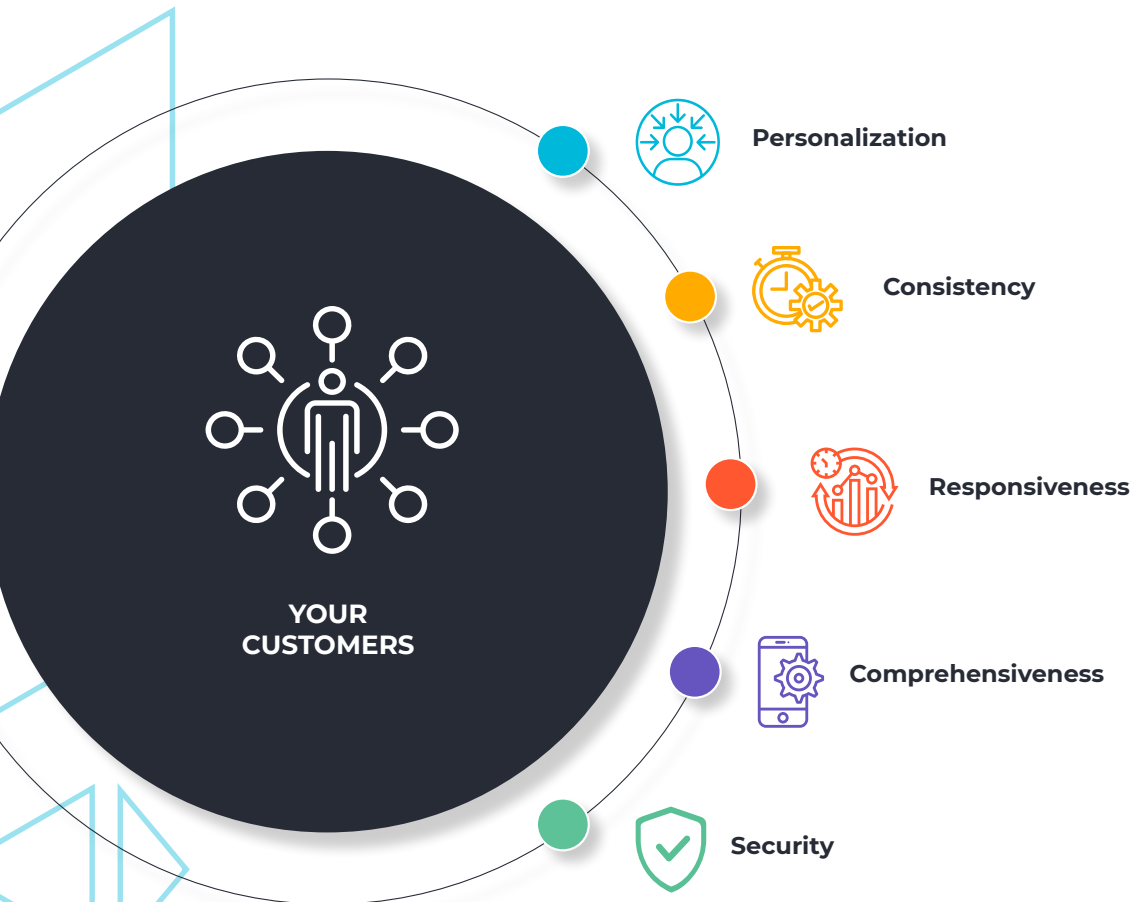

- Does not address underlying legacy infrastructure
- Requires full organizational support
- Projects can stall without the right talent & culture in place
- Upfront expenses can prove costly with minimal ROI to start
- Requires talent to fully support the transformation journey

# THE TOP 5 COMPONENTS

Of Meeting Your Customers Where They Are

Completely configurable experience to meet today's goal and anticipate what they will need next.

01

Deliver focused financial products that are intuitive and easy to use.

02

Quick real-time responses across all channels for transactions and processing.

03

Seamless experience from anywhere on any device at anytime.

04

Offer peace of mind with account monitoring features with alerts through email, text, voice or secure message.

05

# INNOVATE QUICKLY.

Win Indefinitely.

Nymbus was the only technology partner to take our concept and bring it to life, allowing us to quickly innovate and compete with the new non-traditional fintechs entering the market. Some bankers recognize they need to come up with new models to stay competitive and really like what we're doing. Others just smile and nod."

**Dub Sutherland**

VP and Secretary, TransPecos Financial Corp
